Learning Outcomes

After completing the program, graduates will be able to:

Describe cyber security and privacy mechanisms, standards, and state-of-the-art capabilities.

Describe potential cyber attacks and the actors that might perform them, and identify cyber defense methods to prepare a system.

Perform security review of applications, systems and infrastructure.

Design and implement system, network and infrastructure-level solutions to ensure the security and privacy of communications.

Use standard security terminology to communicate effectively with other cyber security professionals.

Understand the ethical and legal implications of cyber attacks.

Campus Options & Tuition

Campus Options

The online program is available to both U.S. residents and international students

The online rates are available only to students fully enrolled to the online program

U.S. residents can choose a combination of face-to-face and online courses

The Jersey City program is not available to F-1 international students

F-1 students can take at most one course per semester online, or at Jersey City

Tuition & Fees by Campus (based on AY 2024-2025 rates)

Online: \$34,290

Jersey City

: \$34,504-\$37,200

Newark, NJ residents: \$36,426-\$46,450

Newark, non-NJ residents: \$44,748-\$63,120

For Newark students, the ranges reflect different course loads per semester:

Highest amount: Based on taking at most 3 courses per semester, no summer courses

Lowest amount: Based on taking 4 courses in two different semesters

Additional fee savings are available for summer semester courses

For Jersey City students, the lower amount assumes the student takes two courses in each of two different summer semesters.

For details, see NJIT's

Tuition and Fee Schedule

.

For information about cost of living see

Tuition and Costs at NJIT

.

Financial Support

All applicants are automatically considered for financial support during admission, with no need for additional communication. H

After enrollment, MS students can apply for campus jobs such as grading, tutoring, research assistantships, or roles in the library.

PhD in CS

Computer Science 2025

The trajectory of Computer Science has been revolutionary, and computer scientists have consistently transformed how we live.

At its core, Computer Science is the foundation for computational thinking, a powerful problem-solving skillset that involves breaking down complex problems into smaller, manageable pieces.

Studying at NJIT

NJIT's Computer Science Department stands out in the NY/NJ region as part of the Ying Wu College of Computing, the area's only college of computing.

Essential Information

The curriculum and requirements for the BS in Computer Science are available in the

BS-CS catalog

. A more detailed list of courses offered by the Computer Science department can be found

in our course catalog

. CS students can also explore a wide range of

computing courses

offered by other departments in the Ying Wu College of Computing. To stay current with rapidly evolving technology, we regularly offer

special topics courses

covering emerging areas in computing.

Accreditation

This degree program is accredited by the Computing Accreditation Commission of

ABET

.

Learning Outcomes

After completing the program, graduates will be able to:

Analyze a complex computing program and to apply principles of computing and other relevant disciplines to identify solutions.

Design, implement, and evaluate a computing-based solution to meet a given set of computing requirements in the context of the program.

Communicate effectively in a variety of professional contexts.

Recognize professional responsibilities and make informed judgments in computing practice based on legal and ethical principles.

Function effectively as a member or leader of a team engaged in activities appropriate to the program's discipline.

Apply computer science theory and software development fundamentals to produce computing-based solutions.

Program Objectives

The objectives of the BS in Computer Science program are to prepare the student so that three to five years after completing the program, they will:

Be participating in and leading the development of innovative computing solutions, advancing computer science through research and development.

Be applying ethical principles and a global perspective to design computing solutions that address societal challenges and benefit society.

Be lifelong learners and adaptable professionals at the forefront of the evolving computing field by pursuing professional development opportunities.

Program Summary

The M.S. in Software Engineering provides comprehensive expertise in designing, building, and evolving large-scale software systems. Unlike tasks that can be automated, software engineering requires complex problem-solving, stakeholder collaboration, and architectural vision.

Curriculum

Industry Demand

The software engineering field continues to experience strong growth as organizations across industries increasingly depend on software. The projected 17% growth rate for software developers and engineers from 2022 to 2032, much faster than the average for all occupations. This demand is projected to continue through 2032.

growth rate for software developers and engineers from 2022 to 2032, much faster than the average for all occupations. This demand is projected to continue through 2032.

Program Details

Admission Prerequisites

The MS program in Software Engineering requires an undergraduate degree in computing. At a minimum, such a degree must include coursework in:

MIT: "Missing Semester"

Google: Data Structures and Algorithms

Coursera: Database Management Essentials

Stanford Online: Compilers

UC Berkeley: Software Design Patterns

Udacity Full Stack Web Developer

For students not eligible for direct admission, NJIT offers a

Graduate Certificate in Software Engineering, Analysis & Design

, which provides a pathway to the MS-SE program. Earning the certificate with a GPA of 3.0 or higher guarantees admission into the MS-SE program.

Learning Outcomes

After completing the program, graduates will be able to:

Design and implement large-scale software architectures that meet complex business requirements

Apply modern software development methodologies and tools throughout the entire development lifecycle

Evaluate and improve system performance, reliability, security, and scalability

Lead software development teams using industry-standard project management techniques

Make informed technical and architectural decisions balancing business needs, technical constraints, and future scalability

Integrate software engineering principles with emerging technologies including AI and cloud computing

Campus Options & Tuition

Campus Options

The online program is available to both U.S. residents and international students

The online rates are available only to students fully enrolled to the online program

U.S. residents can choose a combination of face-to-face and online courses

F-1 students can take at most one course per semester online

Tuition & Fees by Campus (based on AY 2024-2025 rates)

Online: \$34,290

Newark, NJ residents: \$36,426-\$46,450

Newark, non-NJ residents: \$44,748-\$63,120

For details, see NJIT's

Tuition and Fee Schedule

For information about cost of living see

Tuition and Costs at NJIT

Application Requirements

All applicants are required to submit:

Transcripts from previous degree(s)

At least one letter of recommendation

Statement of purpose

All

international

applicants are required to submit scores for the following standardized tests:

GRE

TOEFL, or IELTS, or Duolingo

Test Waiver:

International applicants who hold a degree from an accredited US institution can ask for a waiver of standardized tests. To request a waiver, please contact the NJIT admissions office.

YWCC Advisor Chat & Chew

Campus Center Lobby

Connect with a YWCC Academic Advisor and grab a sweet treat! Stop by the Campus Center Lobby to say hello to advisors, ask quick advising questions and/or registration questions.

APR.

16

Wednesday | 2:30pm

YWCC All Hands meeting

GITC Lecture Hall 1400

Dean Jamie Payton will present her strategic plan for YWCC.

Please note, we would actually like to use GITC 1400 and have spoken with Trent Gwathney from NICC about switching spaces.

APR.

19

Saturday | 10:00am

YWCC Capstone Program

Multiple locations

YWCC Capstone Program

CAPSTONE SHOWCASE

APR.

22

Tuesday | 5:30pm

YWCC Capstone Meeting

Campus Center Conference Room 230

Capstone weekly meeting

APR.

29

Tuesday | 5:30pm
